Kaufleutensaal Zürich - Saturday 1. October 1977

This is the first time that this recording is pressed on vinyl ! A unforgettable concert from The Clash in Zurich. One of their early shows in 1977. The soundquality of the recording is reasonable but even better than many others from that time.

The Damned did not show up at the concert. The only supporting act was **Nasale Boys** from Zurich.

The record is limited to **100** and individually numbered.
